BUG 1.1 Tablet/Mobile. Incorrect Display of Burger Menu.

Previous Steps:

Open the website.

Description of Defect/Steps to Reproduce:

The burger menu displays incorrectly on mobile phones and tablets when pressed.

Click on the burger menu in the top right corner.

Expected Result:

When the button is pressed, we should see the menu displayed correctly for each item.

Actual Result:

When the button is pressed, we see an incorrect display of the menu for each item, which cannot be clicked.

Browsers: Opera/Chrome/Mozilla Firefox

Bug 1.1.2. Header. Tablet. Non-compliance with the screen resolution from 768 to 1279 according to tablet version standards.

Previous Steps:

Open the website.

Description of Defect/Steps to Reproduce:

Check the page from 768 to 1279 pixels (set the resolution via inspect mode). In this range, there should be a tablet version with a burger menu.

Expected Result:

In the range from 768 pixels to 1279 pixels, the page should be displayed in tablet version.

Actual Result:

Starting from 769 pixels, the page switches to desktop mode without the burger menu.

Bug 1.1.3. Header. Tablet/Mobile/PC. PL and UKR Language Buttons Without Active Status

Previous Steps:

Open the website.

Defect Description/Steps to Reproduce:

The buttons "PL" and "UKR" do not have an active effect (meaning the buttons are not clickable).

Inspect the buttons in the top left corner.

Expected Result:

On the page, the "PL" and "UKR" buttons should have an active effect, allowing us to understand that these buttons can be clicked.

Actual Result:

On the page, the "PL" and "UKR" buttons do not have an active effect, which

does not allow us to understand that these buttons can be clicked.

Bug 2.1.1 Hero. Mobile 320-321. Small and Misaligned Text.

Previous Steps:

Open the website.

Defect Description/Steps to Reproduce:

Set the resolution to 320-321 pixels for a phone and pay attention to the text.

Expected Result:

The text should be legible and easily comprehensible.

Actual Result:

The text is too small.

Attachment: image.png

Bug 2.1.2. Hero Mobile 320-339 Text Disappears and is Misaligned. PL Version

Previous Steps:

Open the website.

Defect Description/Steps to Reproduce: Set the resolution to 320-339 pixels approximately.

Expected Result:

The text should be centered and adapted to the size.

Actual Result:

Part of the text disappears. The text is not centered.

Attachment: video.mp4 Browsers: All mobile.

Bug 2.1.3.3 Hero. Mobile. Arrows 566-710 obstruct and overlap with text.

Previous steps:

1. Open the website.

Description of the defect / Steps to reproduce:

Set the resolution to 566-710.

Pay attention to the arrows.

Expected result:

1. Arrows on the album do not obstruct the text.

Actual result:

1. Arrows obstruct the text.

Improvements: I suggest making the arrows transparent. In one location (on the sides).

Attachment:566-710_mp4

Bug 2.1.3 Hero. Arrows poorly visible on the 3rd photo. PC. Mob. Tablet.

Previous steps:

1. Open the website.

Description of the defect / Steps to reproduce:

Swipe to the 3rd album (photo).

Expected result:

1. Arrows on the album are clearly visible.

Actual result:

1. Arrows are poorly visible.

Improvements: I suggest making the arrows transparent. In one location (on the sides) on all devices (from 320 to 1920), as they depend on the resolution and are present everywhere, but in my opinion, it would be best to place them on the sides.

Attachments: 1.png 2.png

Bug 2.1.3.4 Hero. Mobile. Arrows from 320 to 501 are small.

Previous steps:

Open the website.

Description of the defect / Steps to reproduce:

Set the resolution to 320-501.

Expected result:

Arrows should be clearly visible.

Actual result:

Arrows are barely noticeable.

Improvements:

I suggest making the arrows less transparent and increasing their size. Place them on the sides on all devices (from 320 to 1920) since their visibility depends on the resolution, but in my opinion, it would be best to position them on the sides.

Bug 5.1.1 Donation. Mobile. Buttons outside the boundaries.

Previous steps:

Open the website.

Select the mobile version (from 320 to 350).

Description of the defect / Steps to reproduce:

Scroll down to "Donate".

Pay attention to the "Blik" and "Donate" buttons.

Expected result:

Buttons should be clearly visible (along with the information next to them) and remain within the field of view.

Actual result:

The button extends beyond the background, and the information after "Blik" is cut off.

Browsers: All

Attachments:mobile_320._text_out_of_window.png

Bug 5.1.2 Mobile/Tablet. Donation. Header and buttons placement doesn't match UX.

Previous steps:

Open the website.

Description of the defect / Steps to reproduce:

Scroll down to "Donate".

Pay attention to the header "Donate".

Pay attention to the "Blik" and "Donate" buttons.

Expected result:

The header is located on the left.

The buttons are located on the right.

Actual result:

The header is centered.

The buttons are centered.

Bug 5.1.3. Donation. Tablet. Text Alignment Does Not Match UI/UX

Previous Steps:

Open the website.

Set the resolution according to the tablet version.

Defect Description/Reproduction Steps:

Scroll to the "Donate" section.

Pay attention to the text in that block.

Expected Result

The text should be aligned, adapted, and positioned to the left. The text "Donate" should be centered.

Actual Result

The text does not match the UI/UX alignment.

Bug 7.1.1. Gallery. Phone. Incorrect Display from 320 to 480 Pixels.

Previous Steps:

Open the website.

Defect Description/Reproduction Steps:

Scroll to the Gallery section and pay attention to the display of images from 320 to 480 pixels.

Expected Result:

Correct display of images.

Actual Result:

Incorrect display of images in the gallery.

Attachment:from 320 to 480.mp4

Browsers:All

BUG 7.1.2. Up Button Interferes. Bug + Improvement.

Previous Steps:

Open the website.

Defect Description/Reproduction Steps:

Scroll through the website and observe the behavior of the up button.

Expected Result:

The up button should be transparent or semi-transparent (depending on the design) and should not obstruct reading. It should look authentic in its place.

Actual Result:

The button interferes with reading the website and distracts attention (from 320 pixels to 1320-1326). Additionally, the button changes its position when the resolution changes.

Improvements

My suggestion is to fix the button in one place, reduce its size, and make it semi-transparent or completely transparent, depending on which option looks better.

BUG 7.1.3. GALLERY Unadapted Frame for Screen Resolution

Previous Steps:

Open the website.

Defect Description/Reproduction Steps: The frame is not adapted for the screen resolution, it stretches out too much after the last album. Scroll to the Gallery section and observe the frame's display after scrolling through the gallery.

Expected Result:

The frame should be displayed correctly.

Actual Result:

The display needs correction: it is stretched out too much, the frame is too large for the album sizes, and the albums themselves appear too small against the background.

Bug 8.1.1. Text in Support of the Armed Forces Not Centered

Previous Steps:

Open the website.

Defect Description/Reproduction Steps:

Scroll to the "ЗСУ" section.

Expected Result: The text should be centered.

Actual Result:

The text is not centered.

Attachment: from _567 to 570 1

Bug 9.1.1. Footer. Error in Zjegnoczeni_Gdańsk

Previous Steps:

Open the website.

Defect Description/Reproduction Steps:

Scroll to the footer.

Pay attention to the copywriting text: "Розробник Baza Trainee Ukraine 2023 Zjegnoczeni_Gdansk © Всі права захищені".

Expected Result:

The text should be written correctly as: "Zjednoczeni_Gdańsk".

Actual Result:

There is a spelling mistake in the text: "Zjegnoczeni_Gdansk" instead of "Zjednoczeni_Gdańsk".

Browsers: Observed in all browsers.

Bug 9.1.2. Footer. Incorrect Page Redirection

Previous Steps:

Open the website.

Defect Description/Reproduction Steps:

Scroll to the bottom of the page (to the footer).

Try clicking on the links:

PL: "O nas", "Działalność", "Galeria"

UA: "Діяльність", "Галерея"

Expected Result: Clicking on the links "O nas", "Działalność", "Galeria" (in PL), "Діяльність", "Галерея" (in UA), "About us", "Activities", "Gallery" (in EN) should redirect to the corresponding sections of the website.

Clicking on the links "O nas", "Działalność", "Galeria" (in PL), "Діяльність", "Галерея" (in UA) should redirect to the corresponding sections of the website.

Actual Result: All the mentioned links do not redirect to the respective sections. The page redirects to the top instead.

Browser: All

Bug 9.1.3. Footer. Unaligned Footer. Tablet.

Previous Steps:

Open the website.

Defect Description/Reproduction Steps:

Scroll to the footer.

Set the resolution from 770 (±) to 1279.

Expected Result:

The footer should be centered according to the resolution adaptation.

Actual Result:

The footer is not centered, and there is a lot of empty space.

Browsers: All

Bug 9.1.4. Footer. Incorrect Hover Effect Display (PL, UA)

Previous Steps:

Open the website.

Reproduction Steps:

Open the website.

Scroll to the bottom (footer).

Hover the cursor over the text "м. Ґданськ (m.Gdańsk)".

Hover the cursor over the text "e-mail: zjednoczeni.gdansk@gmail.com".

Expected Result:

There should be no visual effect when hovering the cursor over the text.

Actual Result:

A hover effect is displayed, but this is unexpected behavior.

Bug 10.1.1. Modal window. Mobile Photo size and display issue in the modal window.

Previous steps:

Open the website.

Scroll to the Gallery.

Defect description/Steps to reproduce:

There is excessive white space on the page, causing the photos to appear smaller than intended.

Click on the album (a modal window will appear).

Set the size from 320 to 769.

Expected result:

The modal window should display correctly, with photos that are clearly visible and of the correct size.

Actual result:

On the modal window (under the photo), there is excessive white space, making the photos appear small. On the modal window, there is excessive white space, making the photos appear small.

Improvement:

I suggest making the space the same as in the tablet version.
